## Measuring Guide for Scarves

### Tools and Tips
- Steel tape measure — do not use cloth tape
- Pencil
- Round measurements to the nearest 1⁄8"

### Double-check your work—always measure twice to ensure accuracy.

#### Scarpes

<table>
<thead>
<tr>
<th>Width:</th>
<th>Length:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width on a scarf is one full width of fabric; this is standard and does not have to be noted at time of order.</td>
<td>Measure width to be covered. Measure the length you want the scarf to drop down on the left and right sides. Add 18” to 30” if you plan to loop the scarf around the curtain rod or drop it in the center. Add an additional 6” to 10” per side if you plan to puddle on the floor. Add these figures together to get the approximate scarf ordered length.</td>
</tr>
</tbody>
</table>

### Measuring Guide for Scarves

- Width
- Length

- Width on a scarf is one full width of fabric; this is standard and does not have to be noted at time of order.

- Measure width to be covered.
- Measure the length you want the scarf to drop down on the left and right sides.
- Add 18” to 30” if you plan to loop the scarf around the curtain rod or drop it in the center.
- Add an additional 6” to 10” per side if you plan to puddle on the floor.
- Add these figures together to get the approximate scarf ordered length.
